

TIR Event List

Update : 2023/12/12

- ✓ The table below shows the pixel numbers of TIR and the period during which the offset and noise increase occurred.
- ✓ These variations appears as stripes ^{*1} in Sea Surface Temperature (SST) and other products.
- ✓ In the remarks column, cases where stripes are particularly noticeable on the image are described.

^{*1} The sample image is shown on the next slide.

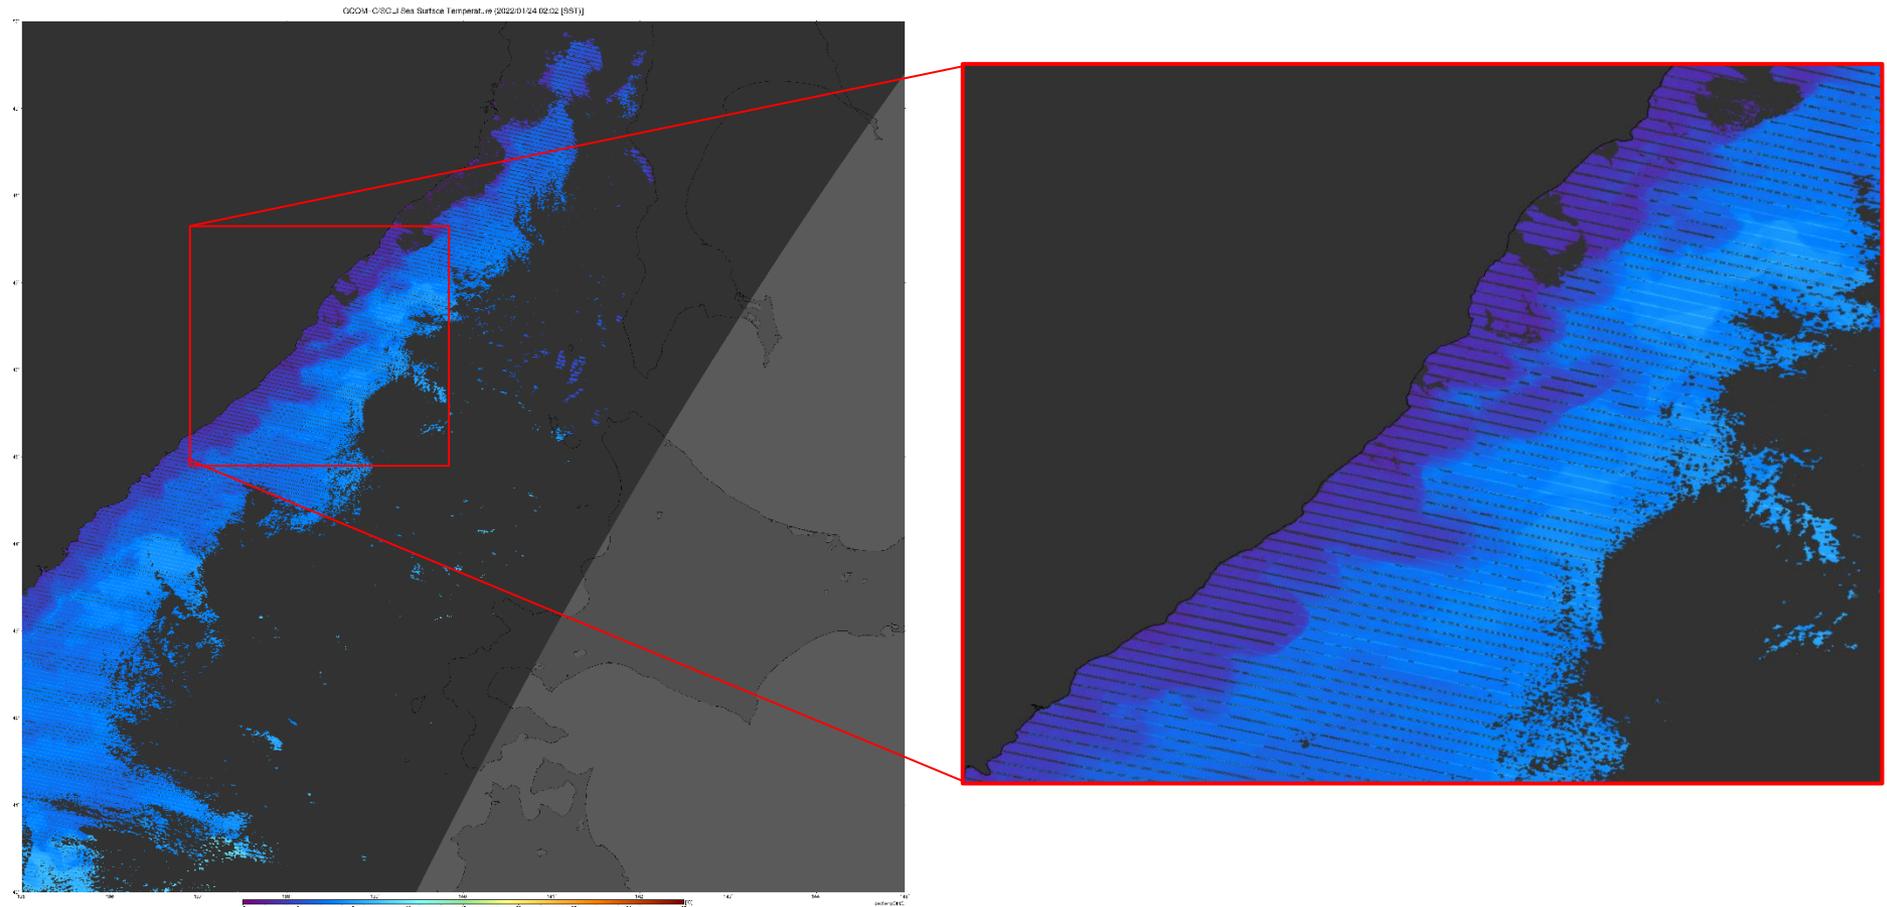

Band	Pixel ^{*2}	From (UT)	To (UT)	Remarks
02	09	2023/09/29 01:06	2023/11/25 01:01	There are noticeable stripes in the image.
01	09	2022/04/13 04:48	2022/05/21 01:12	There are noticeable stripes in the image.
02	07	2022/01/28 14:04	2022/03/05 00:35	There are noticeable stripes in the image.
02	13	2022/01/18 16:52	2022/03/05 00:35	There are noticeable stripes in the image.
02	14	2022/01/18 16:52	2022/03/05 00:35	There are noticeable stripes in the image. (pattern with noticeable noise)
01	13	2021/12/26 15:24	2022/03/05 00:35	There are noticeable stripes in the image.
01	03	2021/10/28 09:45	2021/12/25 00:11	There are noticeable stripes in the image. (pattern with noticeable noise)
01	12	2021/06/11 01:35	2021/07/13 00:52	There are noticeable stripes in the image.
01	11	2021/04/25 15:28	2021/06/05 00:55	
02	10	2020/11/14 03:53	2021/03/02 01:12	
02	08	2020/05/13 13:21	2020/06/28 00:17	
01	05	2019/11/30 14:27	2020/03/07 00:23	
02	04	2019/06/09 15:38	2019/09/03 00:34	
02	06	2018/07/20 21:57	2018/09/22 00:03	
01	17	2018/04/09 01:13	2018/09/22 00:03	
02	03	2018/02/18 14:29	2018/02/27 01:29	

^{*2} The pixel number in 250m observation mode.

TIR Event List

- ✓ The sample image of SST product (2022/01/24 02:02)

TIR Event List

- ✓ The sample image of Land Surface Temperature (LST) product (2023/10/01)
